**DESIRE/PURPOSE TO SERVE NAPE IF ELECTED:**

NAPE has given me the opportunity of serving the Geoscience community in Nigeria for over 10 years in different capacities and portfolio which I am grateful to God. I therefore intend to bring my wealth of experiences ranging from working in various committees as the Lead or member of Editorial, Technical, Membership, Publicity, Venue, Welfare, Logistics, Transportation etc. to promoting NAPE as an association as an effective professional body in the development of Geoscience in Nigeria and best industry practice in the promotion of government policies that govern the petroleum sector.

I shall also be promoting accountability, transparency and diligence in the management of NAPE funds and resources as the Treasurer in the delivery of our aspiration, goals and activities like technical meetings, workshops and annual conferences.

As an outstanding executive member of my local chapter and a passionate promoter of NAPE and her activities within the National circle, I shall provide opportunities for active participation of other members in our events and strife for aggressive membership drives among the Geoscientists working for oil companies, servicing firms and tertiary institutions in my community and beyond.

Last but not the least, as a member of the Finance Committee, I shall faithfully supervise the receipt of all funds and, be responsible and honestly defend all the disbursements of funds of the Association in accordance with secretarial guidance and procedure of transparency.

I remain your loyal, humble friend, committed to serving you rightly.
