From:	Company:
To:	Position:

DESIRE/PURPOSE TO SERVE NAPE IF ELECTED:

Having diligently served this great Association in various capacities in the past decades, I now present myself, if elected, to lead NAPE as its President-Elect. My passion to serve is buoyed by a culture of selfless service and an unalloyed commitment to excellence. I plan to lead the Association with a vision to sustain the great efforts of my predecessors, while positioning NAPE effectively for the next decade. This vision rests on the pillars of Growth, Responsibility and Collaboration.

I plan to continue to work with the Executive Committee, NAPE Staff and the enviable membership of this Association to improve the visibility of NAPE, especially at a time as challenging as this with the global health and economic challenges. I believe I am eminently qualified to lead the NAPE with focus on the following areas:

- ***Revitalizing the NAPE Secretariat and developing a robust membership database***
- ***Setting up of regional offices and expanding the Student chapters with global focus***
- ***Increased focus on Youth development programs***
- ***Career-related events***
- ***Corporate & Socially Responsible initiatives***
- ***Winning partnerships with other Associations***
- ***Expanding the Scholarship programs to include mentorship and internship opportunities***
- ***Evolving NAPE into an Energy-focused Association from 'oil and gas'***

I would also work with the incoming NAPE Executive Committee and Chapter Coordinators to energize existing NAPE Chapters, continue to create Chapters within and outside Nigeria and work to ensure that NAPE positions itself to be the Petroleum Association most sought after by the Government, Industry and the Academia.
