**DESIRE/PURPOSE TO SERVE NAPE IF ELECTED**

With membership of over 7000 professionals and several corporate entities, NAPE can be considered the foremost geoscience association on the continent of Africa, so it would be an honour for me to serve such a noble body which is at the centre of providing the energy that drives the world. Having been a member of NAPE since 1998 and seeing the various strides it has achieved in the promotion of the study and practice of petroleum geosciences, I believe that NAPE is worth every ounce of energy that anyone can deploy in its service.

In the course of my stint as **Financial Secretary** of NAPE, I should be held accountable against the following:

1. Resolve [immediately] the recurrent issues of delayed and outstanding membership dues
2. Prepare and coordinate purpose-driven and ethically compliant annual budget and expenditure
3. Rework and consolidate a strong and enduring capital base for NAPE to operate
4. Secure and optimize every kobo from ALL sources of revenue available to NAPE

5. Undertake the automation and digitalization of the above plans

The above shall be in addition to the statutory responsibilities (section 8, page 23) of the **Financial Secretary** enshrined in the Constitution and By Laws of NAPE (as amended 14<sup>th</sup> March 2015).
