DESIRE/PURPOSE TO SERVE NAPE IF ELECTED:

I desire the office of Publicity Secretary of the Association in order to enhance the National awareness and impact of the association in the National development of the Nation via the Oil and Gas industry, creating awareness of the association expertise in the legislature of bills affecting the Industry and improvement of geoscience education in the Country. In conjunction with the National Executives, will provide a robust and interactive platform for the industry experts and government officials, synergizing to produce a better industrial harmony for efficient and better operating environs as well as improves the contribution of local contents in national development of the industry. I will also use the office to create greater awareness of the association in geoscience education by bridging the gap between the Industry and the Academics, thus improving the efficiency of our University graduates. Develop programs and platform that will keep corporate members and sponsors engaged through frequent online newsletters publication, provides digital innovations of disseminating NAPE programs to members vis-a-vis the New Normal, enhance the online visibility of NAPE bulletin and other technical presentations, enhance the frequent publication of NAPE Bulletin (both hard and online copies) and the digital supports needed for indexing of NAPE bulletin.

Improves the website of the Association by incorporating advance digital operating system for efficient communication and better interactive platform for members and sponsors. Introduction of professional development programs online in conjunction with NAPE-YP for young professionals and graduate students.

Provide a robust communication line for all members through interactive online platform and other digital means of things (IOT). Ensure prompt and frequent dissemination of information on technical meetings and presentation to all corporate members/sponsors, associate and students through available platforms.

Create a comprehensive data base of all corporate members and sponsors via online link and the growth of NAPE membership drive using technological means of communication.
