DESIRE/PURPOSE TO SERVE NAPE IF ELECTED:

Vision: Advancing Excellence, Sustainability and Promoting Innovation in NAPE

With my over 20 years of active involvement in NAPE, where I have been privileged to serve in two important elective capacities, I am honored to present my vision as a candidate for Vice President—a vision anchored in strengthening our professional community, fostering innovation, and amplifying NAPE’s impact within and beyond Nigeria as a pioneer professional society.

My commitment is driven by three strategic pillars:

- **Professional Empowerment:** NAPE has the repository of knowledge from across the academia and industry as well as policy formation. I will champion programs that enhance continuous professional development through certifications, and industry-academia partnerships. This will give our members the dynamic tools to remain globally competitive and relevant in this changing energy landscape.
- **Inclusive Leadership and Engagement:** I will work to unify our diverse membership—Students, Young Professionals, Mid-Level and Senior Professionals, by promoting mentorship programs, strengthening the regional chapters, and encouraging inclusivity. A more engaged membership means a more vibrant and representative NAPE.
- **Strategic Visibility and Innovation:** Working with the Executive Committee, I will advocate for bold initiatives that increase NAPE’s visibility, including collaborations with international bodies, policy-shaping dialogues, and thought leadership platforms. We must not only adapt to the evolving energy landscape but help shape it by our active involvement.

In addition, I will continue to strengthen the age-long tradition as Chair of the Distinguished Awards Committee by ensuring that we recognize and honor members who have served the association and will continue to serve the Association.

As a foremost professional association, a strong brand presence matters, and this can be projected by an edifice from where our operations are driven. I will strive to ensure we have a befitting secretariat which our 50-year-old Association deserves.

As Vice President, my approach will be collaborative, transparent, and impact driven. I bring not just experience, but a deep commitment to serve with integrity, transparency, and purpose.
